EDUCATION

University of California, Davis Davis, CA

B.S. in Statistics: Statistical Data Science,

Scholarships/Awards: Crankstart Scholarship, Gilman Scholarship, Experiential Learning Award, Kode with Klossy Future Fund

Classes: Regression Analysis, Fundamentals of Statistical Data Science, Mathematical Statistics

WORK EXPERIENCE

AGRI-TECH DATA ANALYST INTERN **KimPax**

Tokyo, Japan June 2026 - August 2026

- Prompt engineered classification program to automatically categorize 400+ audio messages for "knowledge capsules" for KimPax platform using OpenAI's API
- Analyzed and compared decision-making patterns between experienced and novice farmers, translating findings into a report and presenting insights to AgTech founders and industry stakeholders
- Developed and maintained data workflows and documentation in Jupyter/Google Colab, contributing to the company's shared GitHub repository that improved categorization workflow
- Presented data analysis findings at an international industry event (~30 attendees across agriculture, AI, and sustainability), communicating technical results to a cross-disciplinary audience
- Produced technical and promotional videos to communicate project findings and KimPax's work, including the company's introductory video featured at an international industry event

SUSTAINABLE DEVELOPMENT GOALS INTERN **UC Davis Global Learning Hub**

UC Davis Mar 2026 - Present

- Analyzed UC Davis data against 17 UN SDGs goals using Python, Tableau and Excel to build structured datasets and interactive visualizations
- Surveyed UC Davis students to analyze UN SDG involvement on campus
- Designed and delivered SDG impact dashboards and PowerPoint presentations to communicate findings to Global Affairs stakeholders in an official report

CONTENT & COMMUNITY CREATIVE INTERN **Kode with Klossy**

Remote Nov 2024 – Jun 2025

- Owned the ambassador program end-to-end, from applicant review and cohort selection to managing a cohort of 11 ambassadors through content development and campaign execution
- Created, edited and reviewed marketing content produced by 11 ambassadors, providing creative and strategic feedback to ensure brand alignment, strong messaging, and high-quality execution
- Architected an automated 7-stage content workflow connecting Google Suite, Airtable, Frame.io, and Circle via Zapier, automating submission routing, peer review, notifications, status tracking, and file management
- Drove adoption of the new workflow by onboarding the KwK team and documenting processes and system logic, reducing manual coordination and creating a scalable process for future ambassador cohorts

DATA SCIENCE INSTRUCTOR ASSISTANT **Kode with Klossy**

Atlanta, GA | Hybrid May 2024 - Jul 2024

- Taught and facilitated lessons for Python, Looker Studio, Google Colab, SQL, Kaggle
- Managed and assisted in teaching a group of 30 high school aged women/non-binary individuals for 2 week computer science camp
- Served as project manager for 4 groups concurrently working on front-to-end data science projects

---

SKILLS: Python (Pandas, NumPy, Matplotlib, scikit-learn), Jupyter Notebook, R, C++, HTML/CSS, Excel, Project Management, Photo/Video Editing, Airtable, Zapier, Canva, Spanish Biliteracy, Tableau
